WHY SAILING?

FASCINATION OF SAILING

Sailing is one of the fastest growing sectors in the sports sponsorship.

- // Regattas with **one-design boats** are the Formula 1 of sailing, but conducted inside the elements: Sun, water and wind.
- // **Combines tactical thinking**, physical abilities and dynamics – the outcome of the competition to be determined exclusively by the crew members' abilities, creativity and teamwork.
- // **No age or gender limitations** - the team format in the sport, makes different abilities - both physical and mental to be appreciated and valued.
- // Spectacular - the implemented format **keeps the competition close to shore** and all the spectators – usually inside port's aquatory.
- // One of the most outdoor sports – a common ambassador for **responsible** and **sustainable** environmental behaviour.
- // **Globally appreciated** and famous for its strong and loyal communities.

Sponsor's branding

For each event during the season, teams are scored on the maximum system, with first place taking 10 points, second place taking 9, and so on. All teams after 9th place receive 1 point.

If there are 3 or more events in the season - the annual points per team are formed from all events except one - the one with the worst result (least points). If there are two (or one) events - they all count.

Teams that did not participate in some events of the season receive 0 points for them.

The top two or three clubs whose teams scored the most points during the season are eligible to participate in SCL events the following year.
